

# AFIX Decision-makers' Workshop: Session 3

## Survey

This quick survey has three objectives:

1. To gather information about the political /business environment in your country.
2. To provide a way for workshop participants to share this information, identify potential problems and work on possible solutions.
3. To provide a basis for general discussion in the final session.

Once you have completed the survey (it should no more than 15 minutes), please hand it to your workshop facilitator, who will analyse all the responses for presentation after the next session.

---

## Questions

**1. As far as you are aware, how many ISPs does your country have?**

---

**2. Do you think your country could benefit from an IXP?**

- Yes  No

**3. If yes, what are the major reasons (tick all that apply)**

- Increased efficiency of communication  
 Lower costs of internet use  
 Will encourage ISPs to work together in other areas  
 Will enhance technical skills in the country  
 Other (please specify)
- 

**4. If no, why not? (tick all that apply)**

- Too little Internet activity to make it worthwhile  
 Will harm existing transit providers  
 ISPs won't work together  
 Other (please specify)
- 
-

**5. Apart from the ISPs themselves, what stakeholders would need to be involved? (Please list as many as you can think of)**

---

---

---

---

---

---

---

---

**6. Please make a tick mark against those stakeholders you have listed that might oppose the creation of an IXP.**
